

Natural way of ripening Mangoes and Banana

KVK Name: **Gumla**

Name: Shri Kali Charan Singh, Village: Kisne

Age: 51

Gender: Male

Mob.: 9661485613

Education: Matric

Farming experience:12

District: Gumla, State: Jharkhand

Brief about innovation: Farmer of Sarita Panchayat using amaltas leaves to ripen their Mango and Banana instead of calcium carbide. Generally, it takes 3-4 days for ripening of mango and banana.

Specification/ utility:

- Bio-safe and natural method without side effects, unlike ethylene-based ripening.
- It is gaining popularity among farmers with growing awareness.
